For more than 25 years, the Odyssey of the Mind program has been demonstrating that creativity can be taught, stimulated and improved with practice, just like any other skill. In the program, students apply their creativity to “think outside the box” and develop solutions that range from building mechanical devices to presenting their own interpretation of literary classics in a fun and challenging environment.

Hunters Woods ES has an exceptionally strong Odyssey of the Mind program, sending several teams to competition each year, including one to **World Finals** last year!!

Come learn more about the program!! **We need coaches to even form teams and volunteers to help support the teams** – find out how you can coach or volunteer on your child’s team!!  
**Training and mentoring will be provided!!**

**Do not let this incredible opportunity to go on a creative and fulfilling journey pass you & your child by!!!**
